## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse on 10/17/2003 of Group I, claims 1-35 and the elected single disclosed species of Group I, the order Ranales whereas the elected species order reads on claims 1-3 and 22-24 is acknowledged.

Upon further review, an election of species requirement for Group I is deemed necessary-as set forth below:

For Group I, claims 1-3 and 22-24, the claimed species of the plant genus selected from the genera consisting of:

a) Mahonia b) Clematis c) Hydrastis d) Ranunculus

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for group I from the list of (a-d) above for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that the reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of allowed generic claim as provided by 37 CFR 1.141. If claims are

added after the election, applicant must indicate which are readable upon the elected species. MPEP 809.02(a)

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be completed must include an election of the invention to be examined even though the requirements be traversed (37 CFR 1.143).
